## All of our offerings can be customized to meet your unique needs.

### **Disclaimer**

*These health check offerings are discounted from our normal infrastructure audit engagements, as such they are limited in scope and are intended to provide clients with an overview of their existing environments and are not intended as a substitute for a full infrastructure audit. The \$699 consulting fee covers the first 4 hours on the engagement. Additional hours will be billed at \$250 per hour with amendments made to any relevant Statements of Work using Hipkind TSG's change management process.*

Hipkind TSG provides a comprehensive suite of Healthcheck offerings that cover the majority of your existing infrastructure needs. These healthchecks have been designed to provide the maximum level of understanding of your current infrastructure as well as the necessary recommendations to rectify any areas of concern.
